

Contract from
Babymaking For Everybody: A Guide to Fertility and Family Building for LBGTQ+ and Solo Parents by
Ray Rachlin and Marea Goodman, 2023

Dear _____,

Thanks for taking the time to read this! We are A and B, a queer couple from _____. A is a mechanic and B is a teacher. We met 5 years ago while in school. We have been pursuing becoming parents for __ (amount of time) __, and are looking for a local sperm or egg donor to help us have a baby.

We are looking for a donor who is __ (ethnicity, personality trait, location) __, nice, no major family medical concerns and local to _____. Our ideal donor would understand that we are the only parents to a baby conceived by sperm or egg donation, and we are open to having a relationship with the donor that ranges from distant contact to family friend.

Being a sperm or egg donor would be a huge gift to our family. We would ask (and pay for) you to have an STI test and a sperm count before starting/all related medical costs for harvesting eggs. We also request to sign an agreement clarifying that we are the only intended parents. [For sperm donors only]: Donation would also involve a little bit of on-call availability to provide a sperm sample once or twice a month.

If you're open to talking about becoming a donor for our family, please let us know when in the coming weeks we could take you out for coffee or ice cream or chat on zoom.

Thank you for considering to help us become parents

Sincerely,

A & B
